Amusements.

A traveler, when tired of looking on the red and yellow leaves of autumn, had better inquire the way to Turnham Green.

The Scripture says that the Creator repeated having made man, but nowhere says that he repeated having made woman.

A wag on seeing an old goblin trying to swallow a cotton string, very facetiously remarked: "That was the last attempt to introduce cotton into Turkey."

A Wisconsin drunkard lately dug into his wife's grave to get a gold ring, which he supposed was on her finger, in order to procure the means of buying whiskey.

That motion is out of order, as the chairman of a political meeting said when he saw a ruffian raise his arm to throw a rotten egg.

A brother editor tells us that when he was in prison for libelling a justice of the peace he was requested by the jailer to give the prison a puff.

Power of a Kiss—A fond old daddy says, as simple a thing as a kiss, it is more efficacious as a remedy than anything you can purchase at a drug shop. Little Bobby pounds his finger, raining tears, accompanied with thundering boo-boo, he runs to mamma, extends the wounded hand, receives a kiss upon it, and there, it's all well. Away he scampers, as though nothing had happened. Let husbands and wives apply a kiss to every careless wound, and they may rest assured that it will soon "all be well."

Foreign and Colonial.

Further by the Persia and Kangaroo.

Continental advisers had been very warlike. The *Moniteur*'s second article had an unfavorable effect.

Lord Cowley had returned to Paris, and had had an interview with the Emperor. Nothing definite is known in regard to his mission. Rumors were circulated on the 18th, causing considerable alarm in London, and a slight rise in Paris, and 1 per cent. in Vienna.

Austrian journals continue very bilious, and there is no abatement to Austrian preparations.

Affairs in Serbia are unchanged. A reported secret treaty exists between the King of Serbia and Napoleon. The latter guarantees defensive and offensive aid against Austria, and security for Serbia in any Lombardy acquisitions, on condition that Savoy and Nice be ceded to France.

The Spanish official journal announces full satisfaction from Mexico.

The Portuguese Minister has resigned. The Duke Terceira leads the new Cabinet.

Russia forbids the exportation of horses for European frontier.

The London Times says that the leading submarine cable-makers are willing to contract for the successful submergence of an Atlantic cable, taking all risk of loss or damage upon themselves.

The American ship *C. Scranston* had been slightly damaged by the Liverpool.

The Neapolitan exiles continued to attract sympathy, and liberal subscriptions were being made to the fund for their benefit. Most of them were in London, and were in the city of London.

The horses were taken from the carriage, and he was drawn through the streets by the populace amidst great cheering.

France.

Lord Cowley's mission tended to increase the apprehensions of war. Rumors were current that the Lyons Railway had received orders to keep itself in readiness for the transportation of 75,000 men. The Emperor was to review the Imperial Guard on the 50th anniversary of the entry into Paris of Napoleon from Elba. There is some expectation that he will address them.

Austria.

It is stated that the Austrians have commenced to lay mines for the purpose of blowing up the bridge of the Tirolo, on the Tyrolo.

Italy.

An American who had received disastrous news from home, had thrown himself into a torrent of lava at Mount Vesuvius. The body was instantly consumed.

Russia.

Seize is being laid to Solomani's capital in the Caucasus. A stubborn defence is expected. It is also asserted that the squadron which left Toulon would proceed to Algiers, for the purpose of bombarding troops.

Hints to Farmers.

The whitewashing of cattle and horse stalls, as well as the inside of hog pens and barns, not only renders them more healthy, but prevents the animals and fowls from being infested with troublesome and filthy vermin.

Keep your stables and barns well littered. Leaves from the woods are excellent, and absorb the liquid manure well; besides, they themselves make good manure. Nothing that will make manure should be wasted, but carefully saved. Never undertake to fat an animal until you have first made it comfortable in bed and board.

If you wonder why other people's cattle are gentle, try the discipline of kind treatment on yours, and you will learn the secret.

If you nail the edges of two narrow boards together in the shape of a trough, and fasten it up under the eaves of your stable, over your manure heaps, you will save dollars you would otherwise lose.

When you undertake to break a pair of steers begin with them while they are young, and let nobody drive them except yourself. "Too many cooks spoil the broth."

If you invest money in tools, and then leave them exposed to weather, it is the same as loaning money to a spendthrift without security—a dead loss in both cases.

A CURIOUS CALCULATION.—The quantity of cotton wool I brought into England every year might be piled into a pyramid which would rival that of Cleopatra. The eight thousand five hundred and seventy-two millions of bales of yarn spun in England in a year might be wound round and round the earth, as we wind a string round a top; or we might throw the shuttle over distant Uranus, and then together together the "red planet Mars," the Earth, Venus, Mercury, and the Sun in four feet of cotton.

The whole of the British Islands might be wrapped up in cotton wool, and put in a very many years' consumption of that raw material.

J. LEWIS GRANT, Superintendent.

Toronto, Dec. 30, 1898.

"Equitable" Fire Insurance Company OF LONDON.

CAPITAL, £500,000 STERLING.

General Agent, British North American Colonies, FREDERICK R. STARR, MONTREAL.

This Office insures against Loss or Damage by Fire, all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares and Merchandise in the same; Ships in Harbour or in dock; Craft on Navigable Rivers and Canals, and the Goods laden in the same; and Farming Stock of all descriptions.

The "Equitable" Fire Office will, by constant analysis of its own experience from time to time, adopt such rates of Premiums as the nature of the risk may justify.

With this view, an annual investigation will be made into each class of risk, and a return of one moiety of fifty per cent. of the net excess will be made to all classes of Insurers, whose Policies have been in force for three years.

The engagements of the "Equitable" are guaranteed by a responsible property, and an ample subscribed Capital. The insured are free from the liability of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the profit.

Losses are made good without deduction or discount, and are adjusted and paid in Montreal, without reference to London.

R. H. SMITH, Agent.

March 12th, 1892.

DR. MORSE'S INDIAN ROOT PILLS.

CAUTION.

Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Dr. Morse's Indian Root Pills, signed A. J. H. Jones. All genuine Pills bear the name and signature of B. LAKE JUDSON, (Successor to A. J. White & Co.) on each box.

All orders and letters relating to said Pills must be addressed to B. LAKE JUDSON, No. 60 Leonard Street, Newmarket.

DR. MORSE, the inventor of MORSE'S ROOT PILLS, has spent the greater part of his life in travelling, having visited Europe, Asia, and Africa as well as North America—has spent three years among the Indians of our Western country—it was in this way that Dr. Morse was the first man to establish the fact that all diseases arising from the blood are caused by the impurities of the blood.

When the various passages of the blood are not in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become clogged and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open, and in this way we can have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Salsolite, which opens the pores of the skin, and assists Nature in throwing out the impurities of the blood.

Secondly, it is an expectorant, and opens and unblocks the passages to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraging, they draw large amounts of impurity from the blood, which is then thrown out by the urinary organs. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the outer outlets, are thus taken up and conveyed off in greater quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but becomes united with the blood, for they find way to every part, and completely root out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for there cannot remain when the body becomes pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and is found to sometimes cause the blood to ferment, and thus the blood becomes corrupted, constantly mixing with the blood, which throws the corrupted matter through every vein and artery until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health, and to happiness. Yes, thousands who have been racked and tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cheer and brighten your days.

Caution—Beware of a counterfeit signed A. J. H. Jones & Co. All genuine have the name of B. LAKE JUDSON, successor to A. J. White & Co., on each box. Also the signature of B. LAKE JUDSON. All others are spurious.

B. LAKE JUDSON, Successor to A. J. White & Co., 60, Leonard St., New York.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicines.

Agents wanted in every town, village and hamlet throughout the world. Those wishing to sell the agency will address above for terms.

Price 25 cents per box. Five boxes sent on receipt of 121 postage paid.
